

ISO 10993-5 MEM Elution Test Report

Assessment of Dehydrated Boulders according to ISO 10993-5:2009

Prepared by Marvin the Martian

September 22, 2024

Abstract

This report summarizes the results of the MEM Elution assay for the cytotoxicity testing of Dehydrated Boulders. The purpose of this test is to assess the cytotoxic potential of the test article to determine if the material exhibits any toxic effects on mammalian cells.
